Legal Issues in Nursing

Lawsuits happen everywhere medicine is practiced and thousands of nurses are sued every year. The threat of litigation is real. Stop wondering and worrying how to avoid litigation and discover the important and practical lessons contained in “Legal Issues in Nursing”. Discover important and practical lessons from hundreds of nursing and medical malpractice cases.

This exceptional course was developed on the belief that legal knowledge can improve healthcare outcomes. It promotes an understanding of nursing responsibility as a way to improve patient safety. 100% of the nurses who took this course said that the knowledge they gained made them more aware of their legal responsibilities, improved their nursing documentation and made them a better nurse. The lessons you learn will be motivating, reflective and powerful.

CanLNC Education courses can be applied towards the annual continued learning (Quality Assurance, Reflective Learning, Professional Development, Competence Assessment, Practice Review) required by your nursing registration or licensing body.

CanLNC Education

“Legal Issues in Nursing” is presented by CanLNC Education. President Chris Rokosh RN, PNC(C), LNC, is an experienced and trusted educator on medical/legal issues. Chris has over 30 years of nursing experience and has provided expert opinion on hundreds of medical malpractice cases. She is a dynamic educator and public speaker with the knowledge and experience to guide you into a deeper understanding of the legal issues in nursing. Contributing author Rosemarie Enokson RN, BScN, LNC has extensive experience in the ER (as nurse and clinical educator) and as a Legal Nurse Consultant handling over 50 medical malpractice cases personally while mentoring and reviewing hundreds more.
